Bs3 About Engine
As car owners, you must have heard about terms like 'BS3' and 'BS4' emission standards for a car's engine. These norms are instituted by the Government of India to define the output of permissible air pollutants from an internal combustion engine that power the motor vehicles.

What are BS1, BSII, BSIII, BSIV and BSVI emission norms?
Most petrol powered passenger cars in India have already converted to BS4 years ago. This is mainly because the change from BS3 to BS4 is easiest for internal combustion petrol engines. Most emissions standards are met by the engines themselves without the need for complex post combustion methods to reduce the effect of pollution.
