Religion And Science Bertrand Russell

Russell writes in an engaging manner, always lucid and highly logical, and focuses on religion and science in the modern western world. As such, by 'religion' Russell is concerned with Christianity; and by 'science' he's interested in the natural and physical sciences (such as physics and astronomy).

Religion and Science: Russell, Bertrand, Ruse, Michael ...

Bertrand Russell reflects on the conflicts of science and religion by outlining the history of each. Although Russell is a renowned critical thinker and agnostic proponent of science, his presentation is closer to a historical account rather than a one-sided argument. He finds faults and praise for both science and religion and views their respective conflicts in relation to the thought process of societies at their respective time periods.
